

# Five9 Highlights its Cloud Computing Platform for Call Centers at SuiteCloud 2010 in San Francisco

*Leader in on-demand call center software joins global gathering on cloud computing*

**PLEASANTON, Calif. – April 12th, 2010** – Five9, Inc., the leader in on-demand call center software announced today its participation in NetSuite’s SuiteCloud 2010, a global conference on cloud computing. Five9 is exhibiting the industry-first [Cloud Computing Platform for Call Centers](#) at the SuiteCloud Expo.

SuiteCloud 2010 takes place at the InterContinental Hotel in San Francisco, from Tuesday, April 13th to Friday April 15th. SuiteCloud Expo exhibits are open on the final two days of the conference, Thursday and Friday. Five9 is exhibiting at booth #18.

**Five9** introduced its industry-first [Five9 Cloud Computing Platform for Call Centers](#) to enable customers, software developers, consultants and I.T. professionals to build native software integrations between Five9 on-demand call center software and other enterprise software applications. Using its Cloud Computing Platform, Five9 also provides a suite of pre-packaged integrations between the Five9 Virtual Call Center Suite and leading on-demand, cloud-based enterprise applications, including a pre-packaged integration for NetSuite CRM+

“We’re proud to participate in SuiteCloud 2010 and contribute to the sharing of ideas and knowledge about how cloud-computing can reduce costs and improve productivity for companies of all sizes,” said Jim Dvorkin, CTO of Five9. “We have many companies and independent software vendors using the [Five9 Cloud Computing Platform for Call Centers](#) bringing value to their customers by delivering cloud-based, industry-specific call center solutions and integrating existing applications with Five9 on-demand call center software,” he continued.

Five9 pioneered the on-demand call center software market in 2001 and with the largest engineering team in the on-demand call center industry continues to enhance its call center product portfolio based on market demand, customer and partner feedback, and a promise to offer companies of all sizes access to sophisticated and innovative call center solutions quickly, at a cost of ownership far lower than traditional premise-based solutions.
